

# **Morality Scripture to a Reptilian Species at 3.1-3.5 Evolutions**

## Overview of the "Reptile Bible"

Just so one knows, these scriptures were uncovered date unknown on a Reptilian World by a Mammalian, Xeno Cultural Anthropologist. The Reptilians on this World have evolved beyond some of these ancient rites, but the rites that are clearly meant for them at 3.5 evolutions are applied by many of them. Back in Neanderthal times at 3.1 evolutions, parts in these scriptures clearly worship the double ringed planet in the sky as the "Holy Egg of Goddess," and the "Rings of Glory worship the Holy Egg." The Reptilians today are aware that these words of inspiration were merely a Divine intervention there for the sake of establishing morality on their planet when there was clearly very little of it. The Reptilians of this World now have colonized the ringed double planet that orbits their own.

Overall, these are Divinely Inspired words by God to a Species evolving with a different set of natural moral values until they reached 3.5 evolutions, where Morality could somewhat coincide with many Mammalian species. Not all Mammalian and Reptilian species are compatible for moral reasons. Due to this case, "enemy" species either will not commune, or they will fight.

These scriptures have long been held sacred and holy, along with other religious scriptures, some more closed-minded when broken down into cult-practiced material (not included in this work). Many Reptilian religions are morally based; however, some (not included in this work) are immorally based. The Reptilians on this double planet are not the only Reptilians in the universe, and there are some whole corrupt civilizations that would not be compatible with Earth, like this Reptilian World is compatible with Earth's inhabitants.

Overall, this work does not contain every verse and scripture in this particular faith. It was what Xeno Cultural Anthropologists were able to get a hand on. Sometimes people don't want to "share," even within their own species. Xeno Cultural Anthropologists were finally able to get copies of parts of an open-minded Holy Book that seems to compare to Earth Paganism. Blessings to these people for sharing, even though not everyone reading are meant to be serious readers of this Reptile Bible.

May God and Goddess Bless the reader of this Bible regardless of species. It is obvious that whoever you are, you have been drawn to its inspiration. You do not have to be a Reptilian to read these Holy Scriptures, for they are not racially-oriented. If you are among those looking for more than a good story, then may God shed light and wisdom on the reader and seeker. May ix find that Morality and God are not in only one form.

May Sacrifice be only in accordance with Morality by Her Law.

May the venom of humankind be only spat in one's own defense, for the venom of humankind is toxic, but the Holy Venom of the Lady is Healing.

For if humankind disobeys this Law on venom they will not yet walk the Rings of Glory forevermore and be one with Goddess the Reptile.

God loves Humankind and would sacrifice Himself for her survival, thus the Reptile gives chance after chance to sufferers of bad karma.

For it is Her Giant Egg in the Sky, which the Rings of Glory worship, that spawned all Life in earth.

Reptilian Law is Moral.

For the Law must eventually be achieved by karma in order for ladies to walk the Rings of Glory and become One with the Lady.

Blessed is the mortal lady, for she is the mother and protector of her children.

May the males submit unto the ladies, for it is the lady that protects her young and is honorable by both the father and the young.

And may the young revere their mother, their nurturer, as well as their father, which acts as their scavenger of food, water, clothing, and the essential elements to build a habitat, which their mother defends.

If an unclean predator comes forth from the swamps seeking meat, may the

mother defend her young first and her mate second.

A sacrifice should later be honorable in a child's life and may all children in the case of the forged sacrifice of their father in a battle remember their half-seed.

Swamp predators are unclean and shall not walk the Rings of Glory, for they are cannibals and cannibalism is murder; and murder without a just cause is unclean in the Sight of your Mother in Heaven.

"May cannibalism be only practiced when food is null," the Lady your Goddess commands.

This is for the sake of survival in the swamps of the earth in which those deemed low by karma have been sent.

There are other worlds beyond the earth.

These worlds are set in a hierarchy by karma and our Mother in Heaven.

Some worlds are physical. Some worlds are spiritual. Some worlds are even in the earth in the Abode of the Swamp Predators where there is no law.

There is no morality, and there is no protection of the young.

For some swamp predators gone corrupt like beasts and among beasts eat their young for the sake of immoral religious rite, this is not Right in the Sight of the Lady our Goddess.

May no mother eat her young especially for the sake of religion, for if a mother eats her young she will remain in the earth or below all her days until she evolves.

Blessed be our Mother in Heaven, and may All adhere to Her Simple Words of Common Morality.
